NURSING SISTER - Ext 2011, 2102
 Room 107 First Floor, Main Building
 (Notes on First Aid - see page 73)

Outside normal office hours :

NEAREST DOCTOR - 86 6226
 Dr. Fedderson
 3 Denmark Street, Kew.

OR ALTERNATIVELY - 86 6438
 Dr. Corry
 47 Cotham Road, Kew.

RESIDENT OFFICE BUILDING SUPERVISOR

Normal office hours : - Ext 2516
 Seventh Floor, Main Building

Outside normal office hours - 860 2516

INSTRUCTIONS ON TELEPHONE OPERATION FOR
P. A. B. X.

1. HOW TO MAKE AN INTERNAL CALL -

Lift handpiece.

On receipt of dial tone, dial wanted extension number.

2. HOW TO MAKE A LOCAL EXCHANGE CALL -

Lift handpiece.

On receipt of dial tone, dial 0.

On receipt of second dial tone, dial the wanted exchange number.

3. HOW TO TRANSFER A CALL -

In all cases, firstly :

Request the caller to wait.

Press the "HOLD" button.

THEN -

- (a) If dial tone is heard when the "HOLD" button is pressed, this denotes that the call you wish to transfer is an incoming call and may be transferred by you. To transfer the call :
- (i) dial the wanted extension number
 - (ii) when answered, tell the person answering on the wanted extension that you are transferring a call to that extension and ask that person to hold the line (i. e. NOT TO "HANG UP")
 - (iii) replace your receiver, and the call will be transferred automatically.
- (b) If dial tone is not heard when the "HOLD" button is pressed, this denotes that the call you wish to transfer is an outgoing call originated by the Head Office switchboard operator.

In this case :

- (i) tell the caller that you will have to refer the call back to the switchboard,
- (ii) replace the receiver and the call will be transferred automatically to the switchboard operator.

4. HOW TO RECEIVE A TRANSFERRED CALL -

On having been informed that a call is to be transferred to you DO NOT "HANG UP". An audible click will occur when the person transferring the call replaces his receiver. You may then commence your conversation.

5. HOW TO TRANSFER AN INCOMING CALL BACK TO THE SWITCHBOARD OPERATOR (without speaking to the operator)

Request the caller to wait.

Press, then release the "HOLD" button.

Replace the receiver, and the call will be transferred automatically.

6. HOW TO TRANSFER AN INCOMING CALL BACK TO THE SWITCHBOARD OPERATOR - but you desire to speak to the operator before the call is transferred

Request the caller to wait.

Press the "HOLD" button.

On receipt of dial tone, dial 9.

When switchboard operator answers, briefly explain the circumstances, then replace your receiver.

The call will be transferred automatically.

7. HOW TO OBTAIN INFORMATION FROM ANOTHER EXTENSION OR FROM AN OUTSIDE NUMBER WHILST AN INCOMING CALL IS IN PROGRESS -

Request the caller to wait.

Press the "HOLD" button.

On receipt of dial tone, dial your wanted number in the usual manner.

At the conclusion of your information call, DO NOT "HANG UP", press your "HOLD" button and your first caller will be returned to you.

TIE-LINE CALLS BETWEEN HEAD OFFICE, SYNDAL DEPOT AND DANDENONG DIVISION -

(a) Head Office to Syndal or Dandenong -

Lift handpiece.

On receipt of dial tone dial the tie-line number

6 for Syndal Depot

7 for Dandenong Division

On receipt of dial tone, dial the wanted extension number.

(b) Syndal or Dandenong to Head Office -

Follow procedure outlined in (a) above except that the tie-line numbers are -

Syndal to Head Office - 1

Dandenong to Head Office - 50.

- (c) Syndal to Dandenong -
Lift handpiece.
On receipt of dial tone, dial the Head Office tie-line number - 1.
On receipt of dial tone, dial the Dandenong tie-line number - 7.
On receipt of dial tone, dial the wanted extension.
- (d) Dandenong to Syndal -
Lift handpiece.
On receipt of dial tone, dial the Head Office tie-line number - 50.
On receipt of dial tone, dial the Syndal tie-line number - 6.
On receipt of dial tone, dial the wanted extension.

SPECIAL FEATURES

An incoming call will be automatically transferred back to the operator if the call is unanswered on the expiration of about 45 seconds.

DIAL TONE

It is important with crossbar P. A. B. X. equipment, that the dial tone be obtained before commencing to dial and during dialling when another exchange is being contacted, e. g. after dialling 0 for a local exchange call or after dialling 6 or 7 for a tie-line to Syndal or Dandenong Division.

INDIALLING

Indialling facilities are now installed in the Head Office P. A. B. X. For the convenience in regular incoming telephone calls and to ease the load on the switch-board, officers should advise these callers of the indialling number. This is 860 followed by the extension number, e. g. a call for extension 2505 can be made direct to that extension by dialling 860-2505.

TELEX

1. Availability of Telex

The Board has Telex machines installed at the following locations for use in general communications :

<u>Location</u>	<u>Telex No.</u>
Head Office (Room 523)	31650
Traffic Section (Church Street Annexe)	32390
Syndal	32430
Bairnsdale	51576
Ballarat	39673
Benalla	56472
Bendigo	39521

<u>Location</u>	<u>Telex No.</u>
Geelong	32393
Horsham	55839
Traralgon	39550
Warrnambool	55199

These machines are also available for communicating with the other teleprinter installations throughout Australia and overseas as listed in the Telex Directory issued by the Australian Post Office. (Copies of the Telex Directory are in the possession of Floor Controllers, Administration Officer and Senior Correspondence Officer. Copies have also been supplied to the Materials Research Division.)

2. Transmission Times

Messages may be transmitted from Head Office during normal office hours.

3. Telex message forms (Form 1254)

These have been distributed to the Floor Controllers on each floor at Head Office and further supplies can be obtained from the Stationery Store.

4. Preparation of Telex Messages

Telex messages shall :

- be prepared on Telex Message Forms by typewriter or neatly printed block capitals;
- quote name and initials of sender and file number where appropriate;
- be signed by the originator;
- have the date and time recorded on the form.

The original only is to be forwarded to the Senior Correspondence Officer for transmission to the operator.

5. Confidential Messages

Confidential messages are to be delivered to the Senior Correspondence Officer in a sealed envelope marked 'CONFIDENTIAL'.

6. Despatch Procedure and Distribution of Copies

- Head Office staff are to ensure that the messages for despatch are delivered promptly to the Senior Correspondence Officer Fifth Floor, Room 527. PROMPT delivery is an essential function of a Telex Service.
- Outward Messages

After transmission, the Telex message form and the original of the transmitted message will be returned to the originator. If the message is confidential it will be returned in a sealed envelope marked 'CONFIDENTIAL'. The duplicate copy will be retained by the Senior Correspondence Officer.

(c) Inward Message

The original Telex copy will be handed to the Senior Correspondence Officer for delivery to the addressee. The duplicate copy will be retained by the Senior Correspondence Officer.

7. Registration

It will be the responsibility of the originator of an outward message and the addressee of an inward message to ensure that the papers are subsequently forwarded to Correspondence Registry for placing on the appropriate correspondence file.

8. Telegrams

All telegrams will be despatched to the P.M.G's Department on the Telex. Messages, if not on a telegram form should be :

- (a) clearly marked 'TELEGRAM'
- (b) typed or neatly printed in block capitals
- (c) signed by the originator, who should record the date and time, and file number if known.

Inward telegrams may also be received on the Telex.

All telegrams will be dealt with urgently and procedures described above for despatch and distribution of copies will apply.

9. Conciseness

Telex messages should be as concise as possible with phraseology similar to that normally adopted in telegrams, but care should be taken not to sacrifice clarity for brevity. Excessive use of punctuation marks should be avoided.

FIRE ORDERSHEAD OFFICE - MAIN BUILDING

1. FIRE ALARM BUTTONS AND FIRE FIGHTING APPLIANCES.

Fire alarm and fire fighting appliances are located on each landing of each staircase and additional fire alarms and appliances are sited in various parts of the building. Make yourself familiar with the location of those nearest to your normal workplace.

2. FIRE CONTROL OFFICERS

There is a Fire Control Officer and two Assistant Fire Control Officers for each wing of each floor. The Officers for this wing are :-

(In space above, please insert names of Officers at your location).

3. ACTION IN THE EVENT OF FIRE

(a) BY THE PERSON DISCOVERING THE FIRE

- (i) Break the glass on the nearest fire alarm and press button. Fire alarms are located on walls of stairways immediately adjacent to the doors.
- (ii) Obtain the nearest fire extinguisher of a suitable type and endeavour to extinguish the fire.
- (iii) Call the attention of the nearest officer and ask that the Fire Control Officer be notified.
- (iv) On the arrival of the Fire Control Officer carry out his directions.

(b) BY OTHER PERSONNEL IN THE VICINITY

- (i) Close all doors and windows nearby to retard the spread of the fire.
- (ii) Switch off all electrical appliances and equipment.
- (iii) Obey directions given by the Fire Control Officer.

4. EVACUATION OF BUILDING

In the event of a serious fire, it may be necessary to evacuate one or more floors of the building. Instructions to evacuate a floor will be given by the Fire Control Officers in attendance who will direct staff to the nearest safe exit.

Do not attempt to use the lifts as these could prove to be death-traps in a fire.

5. HINTS ON PERSONAL SAFETY

- (a) Do not panic, but move in an orderly manner.
- (b) Do not attempt to pass others or run.
- (c) Do not return for personal belongings.
- (d) In a smoke filled room or corridor keep as near to the floor as possible.

FIRST AID AND MEDICAL ATTENTION

Nursing Sister Extension 2011	<u>Location</u> First Floor Room 107
----------------------------------	--

BURNS :

Bitumen, Asphalt - Do not try to remove any substance adhering to skin.

Chemicals - Remove any contaminated clothing and keep flooding the burned area with CLEAN WATER.

Fire, Heat Burns or Scalds - Do NOT remove burned clothing or break blisters.

CHEMICALS IN EYE :

Keep flooding the eye with CLEAN WATER.

ELECTRIC SHOCK :

Switch off current - or remove patient from contact with electricity, using a loop of DRY clothing, rubber or rope, or by pushing patient clear while standing on some insulating material.

PROFUSE BLEEDING :

Firmly press a pad of CLEAN material directly against wound and keep steady pressure until help arrives.

SERIOUS HEAD INJURY :

Support head on pillow or clothing and KEEP STILL.
Give NOTHING by mouth.

SUSPECTED FRACTURE :

Do not move patient.

SUSPECTED HEART ATTACK :

Raise head and shoulders.
Loosen tight clothing.
Treat for unconsciousness (as below) if necessary.

UNCONSCIOUSNESS :

Remove dentures.
Ensure that there is no obstruction in mouth which may restrict breathing.
If vomiting, turn patient on to side.
