

1921.

VICTORIA.

COUNTRY ROADS BOARD.

SEVENTH ANNUAL REPORT.

PRESENTED TO BOTH HOUSES OF PARLIAMENT PURSUANT TO ACT No. 2635.

[Cost of Report.—Preparation, not given. Printing (900 copies), £65.]

By Authority:

ALBERT J. MULLETT, GOVERNMENT PRINTER, MELBOURNE.

No. 10.—[1s. 6d.]—1010.

COUNTRY ROADS BOARD.

SEVENTH ANNUAL REPORT.

Melbourne, 31st December, 1920.

The Hon. F. G. Clarke, M.L.C., Minister of Public Works, Melbourne.

SIR,

In accordance with the provisions of section 73 of the Country Roads Act No. 2635, I have the honour to submit to you the Seventh Annual Report of the Board's proceedings, together with statement of accounts for the period and balance-sheet as at 30th June, 1920.

During the period under review, many important works on main roads, that had been held in abeyance or delayed during the war period, were placed in hand, and, in some cases, carried through to completion; the most important and extensive being the completion of the Melbourne to Geelong Road through the Shires of Braybrook, Werribee, and Corio.

The expenditure of loan funds on declared main roads for the year amounted to £336,331 18s. 4d., as against £284,734 7s. 11d. for the previous year, making a total expenditure to 30th June of £1,905,395 6s. 2d.

At that date commitments had been entered into up to the full amount of £2,000,000 authorized under the original Country Roads Act No. 2635.

On the matter being brought before the Government, Parliament authorized a further provision of £500,000 under Act No. 3057, which will enable the Board to continue main road and bridge construction for a further two years at the rate of £250,000 per annum.

DEVELOPMENTAL ROADS.

The expenditure for the year on roads classed as Developmental under Acts No. 2944 and 2985, amounted to £315,701 5s. 6d., affecting 58 shires. As additional shires are continually desirous of taking advantage of the extremely liberal terms offered under the Developmental Roads Scheme, it would appear that the scope for expenditure in constructing roads of this class is almost illimitable.

Every possible care is taken, however, to select only such roads as are likely to result in increased settlement or increased production.

In this connexion, particular attention is given in co-operation with the Closer Settlement Board to areas secured and set apart for soldier settlements, as it is considered essential that such areas should, as soon as possible, be brought to a state of productivity.

APPORTIONMENT OF COST.

The apportionment of the amount expended on permanent works and maintenance on main roads during the financial year 1918-19, was made as usual in accordance with the requirements of section 27 of the Country Roads Act, resulting in a debit to municipalities of £2,686 7s. 2d. on account of interest, and of £88,881 1s. 5d. on account of expenditure in maintenance, all of which amounts were duly received within the time specified.

A further refund of £30,000 was made to the Treasury on account of Special loan of £80,000, granted under Act No. 2938, to temporarily supplement the Board's Maintenance Fund during the war period, leaving a balance of £20,000, which will be paid off during the current financial year.

MOTOR CAR REGISTRATION.

The number of motor cars and motor cycles registered under the Motor Car Act during the year, including renewals, was 31,924, of which 19,939 were cars and 11,985 cycles; the net revenue received, including fines and licence-fees, being £85,362 18s. Traction engines registered under the Country Roads Act numbered 263, yielding £844 18s.

APPENDICES.

Particulars as to permanent works, both on main and developmental roads and main roads maintained on account of all moneys received and expended during the year are shown in appendices.

I have the honour to be,

Sir,

Your obedient Servant,

W. CALDER, Chairman.

W. T. B. McCORMACK }
F. W. FRICKE } Members.

W. L. DALE, Secretary.

DEVELOPMENTAL ROADS.

The expenditure for the year on roads classed as Developmental under Act No. 2044 and 2085, amounted to £316,701 or 6d. affecting 58 miles. As additional moneys are continually desired of taking advantage of the extremely liberal terms offered under the Developmental Roads Scheme, it would appear that the expenditure in construction roads of this class is almost illimitable.

Every possible care is taken, however, to select only such roads as are likely to result in increased settlement or increased production.

In this connexion, particular attention is given in co-operation with the Local Settlement Board to areas secured and set apart for soldier settlements, as it is considered essential that such areas should, as soon as possible, be brought to a state of habitability.

APPORTIONMENT OF COST.

The apportionment of the amount expended on permanent works and maintenance on main roads during the financial year 1918-19, was made as usual in accordance with the requirements of section 27 of the County Roads Act, resulting in a debit to municipalities of £2,886,723, on account of interest, and of £22,881,125 on account of expenditure in maintenance, all of which amounts were duly received within the time specified.

A further refund of £20,000 was made to the Treasury on account of special loan of £20,000 granted under Act No. 2018, for temporary employment the House of Representatives fund during the war period, leaving a balance of £20,000, which will be paid off during the current financial year.

MOTOR CAR REGISTRATION.

The number of motor cars and motor cycles registered under the Motor Car Act during the year, including renewals, was 21,921, of which 19,939 were cars and 1,982 cycles; the net revenue received, including taxes and licence fees, being £265,392 12s. The motor engines registered under the County Roads Act numbered 263, yielding £244,12s.
